

AUTOMATION TECHNICIAN TRANSCRAFT CORPORATION CADIZ, KY

Transcraft ® Corporation, a wholly owned subsidiary of Wabash National ® Corporation, is one of the leading manufacturers of platform trailers in North America. Established in 1962, Transcraft offers a wide range of flatbed, drop deck trailers to meet the needs of the commercial vehicle and construction industries. Its core products are sold under the Eagle® and Benson® brand names. Transcraft is headquartered in Cadiz, Ky.

POSITION DESCRIPTION:

Provide automation technical support for manufacturing and maintenance to meet quality and business objectives. This support includes designing electrical controls and troubleshooting of plant equipment.

POSITION RESPONSIBILITIES:

- Design, build, integrate and maintain control panels, programming and Allen Bradley controls for new and existing automated equipment / fixtures / work cells used throughout the corporation.
- Assist maintenance / manufacturing in hands-on troubleshooting of controls related issues with equipment used in the various assembly and sub-assembly processes.
- Develops and maintains all control panel electrical schematics, using CAD software.
- Work with manufacturing engineering, maintenance, external equipment designers and component suppliers to determine automation controls requirements.

REQUIRED SKILLS AND EXPERIENCE:

- Must have a four (4) year Engineering Technical degree.
- Five (5) to seven (7) years Allen Bradley controls integration experience.
- Five (5) – seven (7) years AutoCAD Electrical design experience.
- Allen Bradley and Fanuc Advanced Programming Training
- Strong interpersonal and communication skills
- An ability to manage multiple priorities
